Pension accrues from work

As of the beginning of 2017

- Pension accrues at a rate of 1.5% of the gross annual wages
- For those aged 53–62 years: at a rate of 1.7% of the gross annual wages until the end of 2025 (accrual during transition period).
- If the pension is taken after reaching the retirement age, the pension will be increased by 0.4% per month.

Retirement age rises by birth group

Year of birth	Retirement age	Age when insurance obligation and pension accrual end
1954	63 years	68
1955	63 years 3 months	68
1956	63 years 6 months	68
1957	63 years 9 months	68
1958	64 years	69
1959	64 years 3 months	69
1960	64 years 6 months	69
1961	64 years 9 months	69
1962–1964	65 years	70

Age limits of earnings-related pension benefits

Benefit	Year of birth	Right to pension in age
Old-age pension		As of age group's retirement age
Partial old-age pension	1949–1963	61–
	1964	62–
	1965–	3 years before reaching the retirement age (follows life expectancy)
Disability pension (full or partial)		17– age group's retirement age
Years-of-service pension	1955–1964	63– age group's retirement age
	1965–	2 years before reaching the retirement age (follows life expectancy)
Survivor's pension		
- Child		0–20
- Surviving spouse, if children		No age limit
- Surviving spouse, no children		50–
Vocational rehabilitation		17– age group's retirement age

Index adjustments secure pension level

- The earnings are adjusted with the wage coefficient to the level of the starting moment of the pension.
- Earnings-related pensions in payment are adjusted annually with the earnings-related pension index.
- National pensions in payment are adjusted annually by Kela with the national pension index.

Index	2020	2021	2022	2023	2024
Wage coefficient	2.0 %	1.3 %	2.5 %	3.8 %	5.1 %
Earnings-related pension index	1.2 %	0.5 %	2.3 %	6.8 %	5.7 %
National pension index	1.0 %	0.4 %	2.1 %	7.8 %	5.9 %

Financing of Earnings-related Pensions

Financing of pensions, by pension act

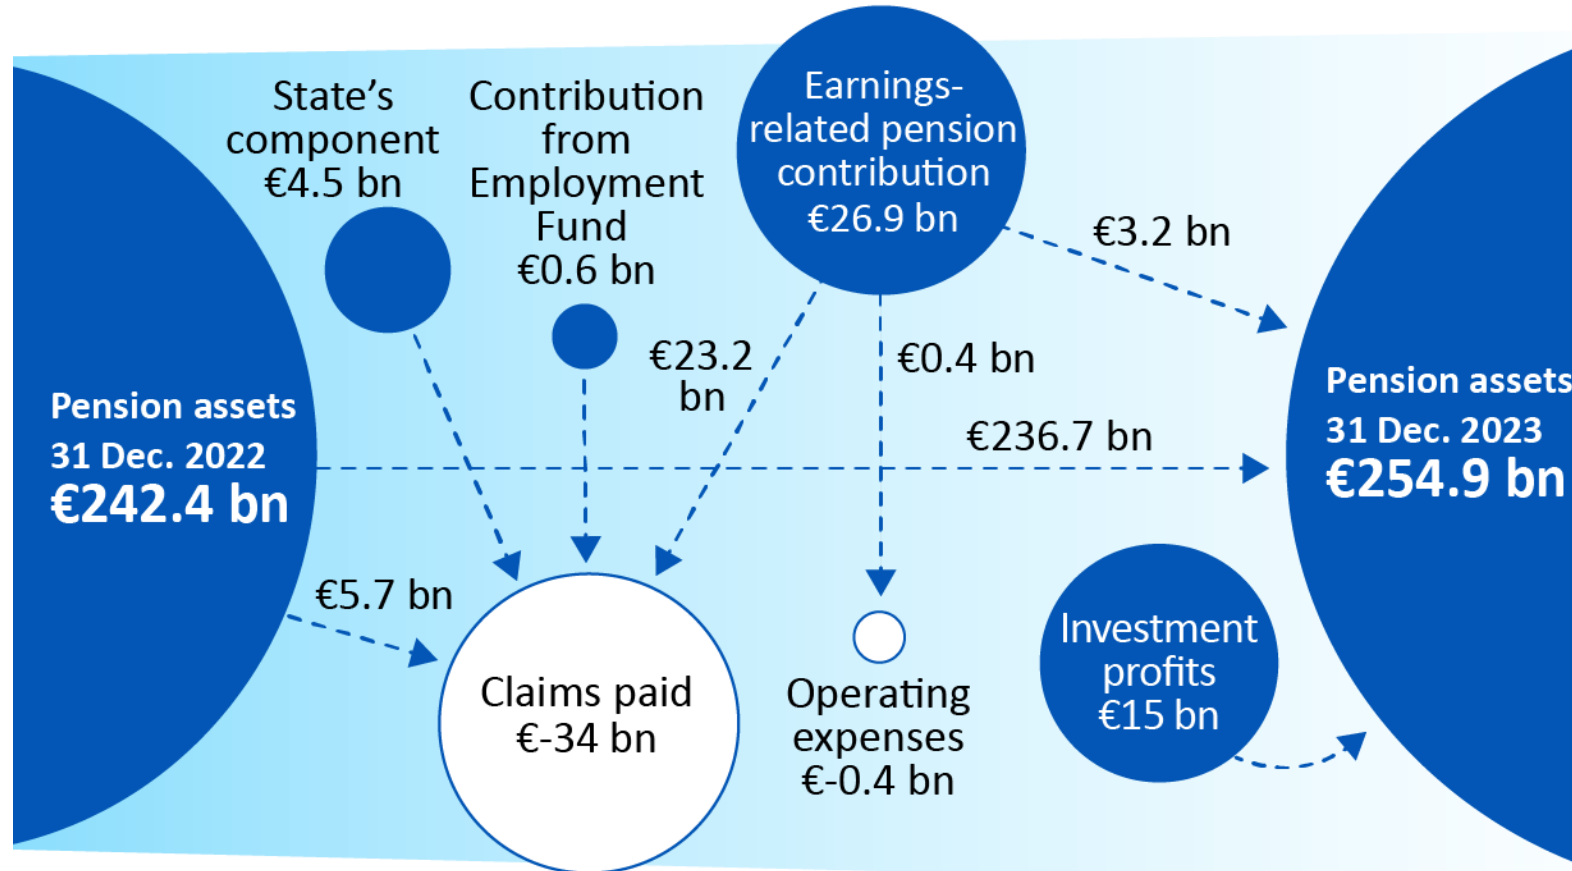

- The Finnish statutory pension provision is financed mainly with earnings-related pension contributions paid by employers, employees, self-employed persons and farmers, as well as with accrued pension assets and investment returns.
- Parts of some of the pensions are financed with state payments and contributions paid by the Employment Fund to the earnings-related pension scheme.
- State funds are used to finance the expenses of VEKL benefits relating to the care of one's own child under the age of three or to studying, as well as relating management expenses.

Earnings-related pension contribution rates in 2024

	Contributions, % of income from work (estimate)	Employee's contribution, % under 53 or above 63 years	Employee's contribution, % 53-62 years
Employees			
TyEL	24.81	7.15	8.65
MEL	19.0	7.15	8.65
JuEL (municipal sector)	27.15	7.15	8.65
JuEL (state)	24.81	7.15	8.65
JuEL (church)	28.97	7.15	8.65
Self-employed Persons'			
YEL	23.2	24.1 ¹⁾	25.6 ¹⁾
MYEL	14.0/13.3 ²⁾	24.1 ³⁾	25.6 ³⁾

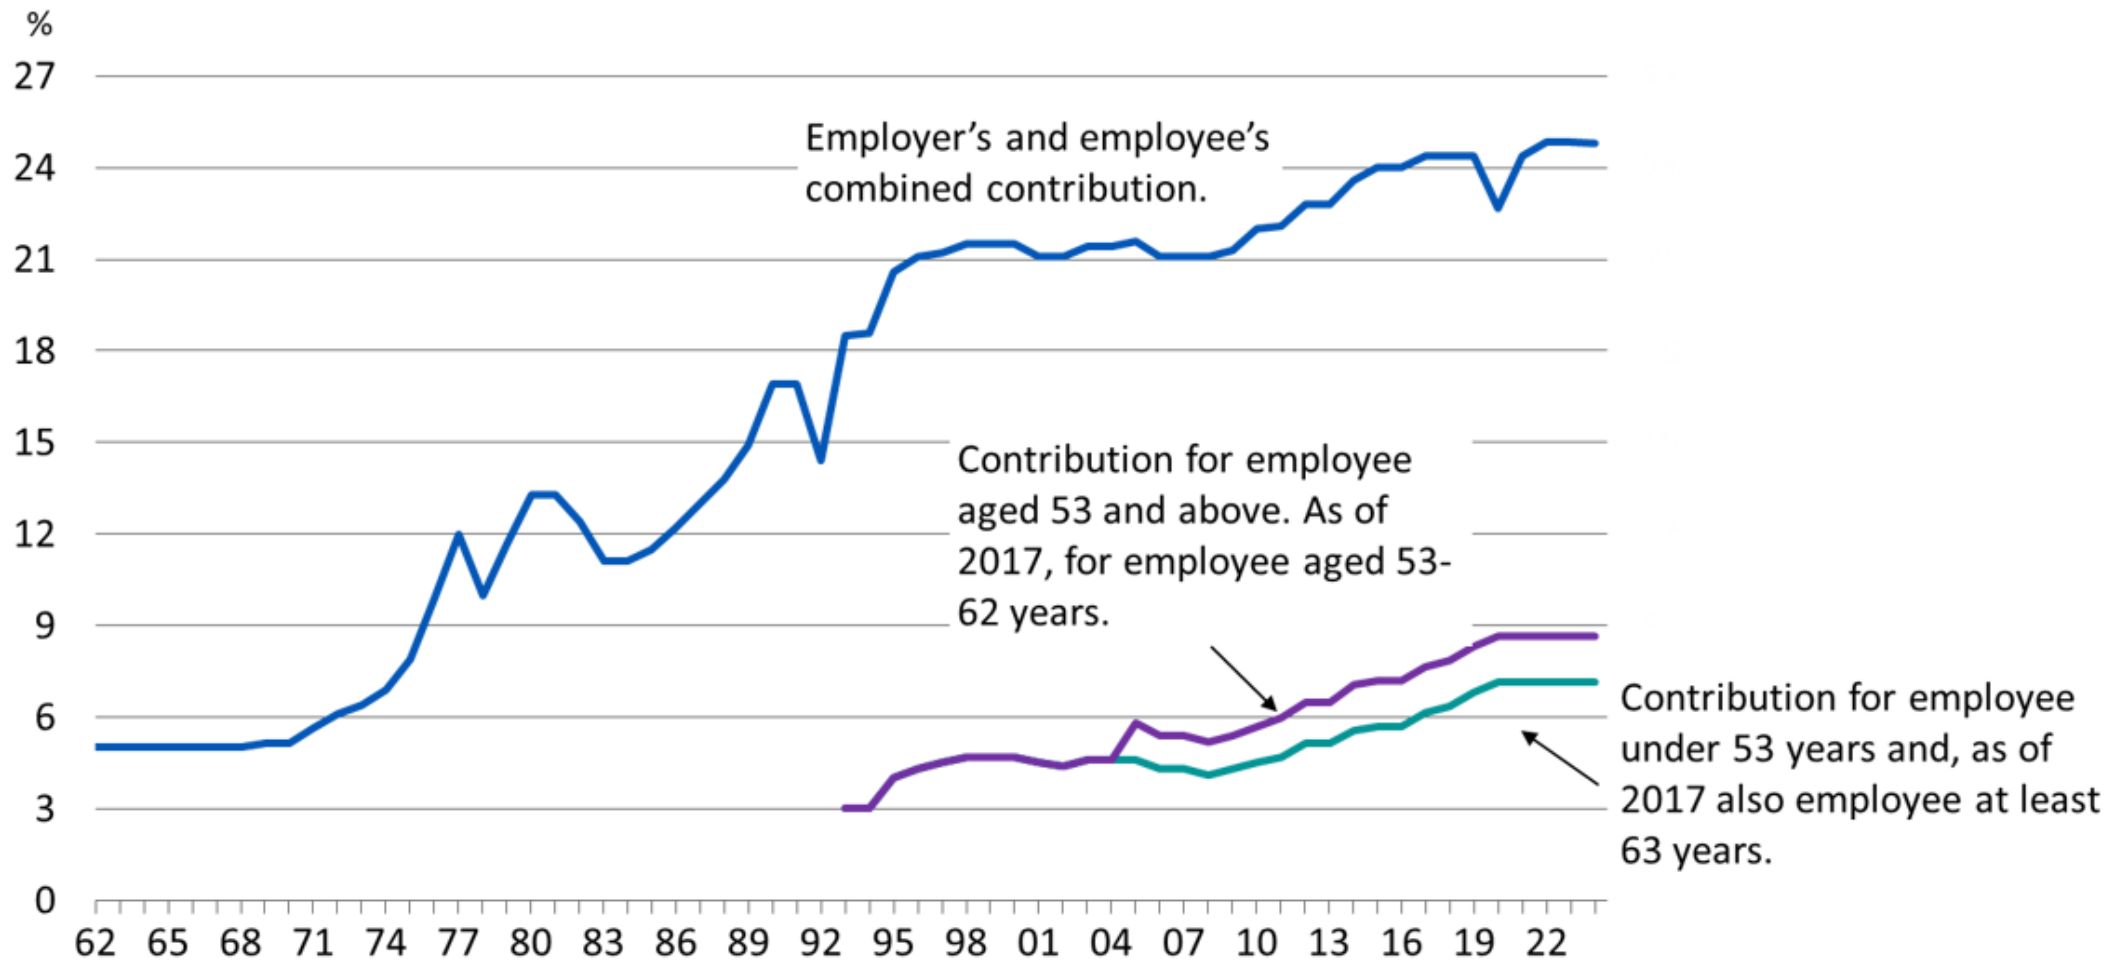

1) Confirmed YEL contributions.

2) The average contribution rate of farmers is 14.0 and grant recipients 13.3 per cent.

3) Confirmed MYEL basic rates.

Average TEL-/TyEL contribution in 1962-2024

Earnings-related pension contribution rates

Term	Explanation
TyEL	Employees Pensions Act
MEL	Seafarer's Pensions Act
JuEL (municipal sector))	Public Sector Pensions Act (local government employees)
JuEL (state)	Public Sector Pensions Act (State employees)
JuEL (church)	Public Sector Pensions Act (Evangelical Lutheran Church employees)
YEL	Self-employed Persons' Pensions Act
MYEL	Farmers' Pensions Act

- The Ministry of Social Affairs and Health confirms the earnings-related contribution rates annually.
- The contribution rates confirmed for the self-employed and farmers are linked to the average TyEL contribution.
- The contribution rate for a self-employed person who has turned 53 is applied as of the beginning of the year after they turn 53 years and continues until the end of the calendar year in which they turn 63 years.
- Between 2005 and 2016 the contribution rate of those who had turned 53 years was higher than for younger employees. As of 2017 the contribution rate has been higher for employees aged 53–62 years.
- The competitiveness pact that took effect as of the beginning of 2017 resulted in a shift of 0.2 percentage points from the employer's contribution to the employee's contribution.

Pension assets and ratio of pension assets to GDP in 2010-2023
